### 1. Purpose, Scope and Users

This policy sets the required retention periods for specified categories of personal data and sets out the minimum standards to be applied when destroying certain information within PSPA.

This policy applies to all business units, processes and systems in all countries in which PSPA conducts business and has dealings or other business relationships with third parties.

This applies to all PSPA officers, Trustees, directors, employees, agents, affiliates, contractors, consultants, advisors or service providers that may collect, process, or have access to data (including personal data and / or sensitive personal data). It is the responsibility of all of the above to familiarise themselves with this Policy and ensure adequate compliance with it.

This policy applies to all information used at PSPA. Examples of documents include:

- Emails
- Hard copy documents
- Soft copy documents
- Video and audio
- Data generated by physical access control systems

### 2. Reference Documents

- EU GDPR 2016/679 (Regulation (EU) 2016/679 of the European Parliament and of the Council of Europe 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC)
- Personal Data Protection Policy

### 3. Retention Rules

#### 3.1. Retention General Principle

In the event, for any category of documents not specifically defined elsewhere in this Policy (and in particular within the Data Retention Schedule) and unless otherwise mandated differently by applicable law, the required retention period for such document will be deemed to seven years from the date of creation of the document.

#### 3.2. Retention General Schedule

The Chief Executive Officer (CEO) defines the time period for which the documents and electronic records should to be retained through the Data Retention Schedule.

As an exemption, retention periods within Data Retention Schedule can be prolonged in cases such as:

- Ongoing investigations from Member States authorities, if there is a chance records of personal data are needed by PSPA to prove compliance with any legal requirements; or

- When exercising legal rights in cases of law suits or similar court proceeding recognized under local law.

### **3.3. Safeguarding of Data during Retention Period**

The possibility that data media used for archiving will wear out shall be considered. If electronic storage media are chosen, any procedures and systems ensuring that the information can be accessed during the retention period (both with respect to the information carrier and the readability of formats) shall also be stored in order to safeguard the information against loss as a result of future technological changes. The responsibility for the storage falls to the CEO.

### **3.4. Destruction of Data**

PSPA and its employees should therefore, on a regular basis, review all data, whether held electronically on their device or on paper, to decide whether to destroy or delete any data once the purpose for which those documents were created is no longer relevant. See Appendix for the retention schedule. Overall responsibility for the destruction of data falls to the CEO.

Once the decision is made to dispose according to the Retention Schedule, the data should be deleted, shredded or otherwise destroyed to a degree equivalent to their value to others and their level of confidentiality. The method of disposal varies and is dependent upon the nature of the document. For example, any documents that contain sensitive or confidential information (and particularly sensitive personal data) must be disposed of as confidential waste and be subject to secure electronic deletion; some expired or superseded contracts may only warrant in-house shredding. The Document Disposal Schedule section below defines the mode of disposal.

In this context, the employee shall perform the tasks and assume the responsibilities relevant for the information destruction in an appropriate way. The specific deletion or destruction process may be carried out either by an employee or by an internal or external service provider that the CEO subcontracts for this purpose. Any applicable general provisions under relevant data protection laws and PSPA's Personal Data Protection Policy shall be complied with.

Appropriate controls shall be in place that prevent the permanent loss of essential information of PSPA as a result of malicious or unintentional destruction of information – these controls are described in information security policies.

The CEO shall fully document and approve the destruction process. The applicable statutory requirements for the destruction of information, particularly requirements under applicable data protection laws, shall be fully observed.

### **3.5. Breach, Enforcement and Compliance**

The person appointed with responsibility for Data Protection (the CEO) has the responsibility to ensure that each of PSPA's offices complies with this Policy. It is also the responsibility of the CEO to assist any local office with enquiries from any local data protection or governmental authority.

Any suspicion of a breach of this Policy must be reported immediately to the CEO. All instances of suspected breaches of the Policy shall be investigated and action taken as appropriate.

Failure to comply with this Policy may result in adverse consequences, including, but not limited to, loss of customer confidence, litigation and loss of competitive advantage, financial loss and damage to PSPA's reputation, personal injury, harm or loss. Non-compliance with this Policy by permanent, temporary or contract employees, or any third parties, who have been granted access to PSPA premises or information, may therefore result in disciplinary proceedings or termination of their employment or contract. Such non-compliance may also lead to legal action against the parties involved in such activities.

## 4. Document Disposal

### 4.1. Routine Disposal Schedule

Records which may be routinely destroyed unless subject to an on-going legal or regulatory inquiry are as follows:

- Announcements and notices of day-to-day meetings and other events including acceptances and apologies;
- Requests for ordinary information such as travel directions;
- Reservations for internal meetings without charges / external costs;
- Transmission documents such as letters, fax cover sheets, e-mail messages, routing slips, compliments slips and similar items that accompany documents but do not add any value;
- Message slips;
- Superseded address list, distribution lists etc.;
- Duplicate documents such as CC and FYI copies, unaltered drafts, snapshot printouts or extracts from databases and day files;
- Stock in-house publications which are obsolete or superseded; and
- Trade magazines, vendor catalogues, flyers and newsletters from vendors or other external organizations.

In all cases, disposal is subject to any disclosure requirements which may exist in the context of litigation.

### 4.2. Destruction Method

Level I documents are those that contain information that is of the highest security and confidentiality and those that include any personal data. These documents shall be disposed of as confidential waste (cross-cut shredded and incinerated) and shall be subject to secure electronic deletion. Disposal of the documents should include proof of destruction from external suppliers where used.

Level II documents are proprietary documents that contain confidential information such as parties' names, signatures and addresses, or which could be used by third parties to commit fraud, but which do not contain any personal data. The documents should be cross-cut shredded and then placed into locked rubbish bins for collection by an approved disposal firm, and electronic documents will be subject to secure electronic deletion.

## PSPA Data Retention Policy

Level III documents are those that do not contain any confidential information or personal data and are published PSPA documents. These should be strip-shredded or disposed of through a recycling company and include, among other things, advertisements, catalogues, flyers, and newsletters. These may be disposed of without an audit trail.

### 5. Managing Records Kept on the Basis of this Document

Record name	Storage location	Person responsible for storage	Controls for record protection	Retention time
Data Retention Schedule	P:\GDPR\Data retention schedule	CEO	CEO, Administrative Support Officer (“ASO”) access only	Permanently
PSPA membership records	Raiser’s Edge database, Azure Cloud Storage in the EU	ASO	All staff are able to create, access and delete records as part of their role. Records are backed up daily with an audit trail available through MIRUS (IT Supplier). ASO and CEO responsible for monitoring and storage procedures and control	Permanently unless consent to retain and process is withdrawn by the member
Register of data supplied to external suppliers	P:\GDPR\Register of data supplied to external suppliers	ASO	ASO, CEO access only	Permanent
HR Records - electronic	HR Toolkit,	ASO	ASO, CEO access only	10 years after leaving employment of PSPA
HR Records - paper	Locked cabinet in the ASO’s office	ASO	ASO access only	10 years after leaving employment of PSPA
Financial records	Sage database, Azure Cloud Storage in the EU	Bookkeeper	Bookkeeper access only	7 years, or current legislation depending on requirements

## **6. Validity and document management**

This document is valid as of 16 April 2018.

The owner of this document is the CEO, who must check and, if necessary, update the document at least once a year.

CEO  
Andrew Symons
